MRIDUL PANDEY

+91 9667444244 mridulpandey619@gmail.com MridulPandey [Github]

Education

Indian Institute of Information Technology, Nagpur

Nov 2022 – June 2026

Bachelor of Technology in Electronics and Communication Engineering. ***CGPA: 8.33***

Technical Skills

Programming Languages: C, C++, Python ,Java,Javascript

Technological Framework: ReactJs,ExpressJs,Flask, NodeJs,RAG,RestAPI

Developers Tools: VS Code, Git/Github, Postman,Jupyter Notebook,Eclipse

Databases: MongoDb,PostgreSQL,MySQL

Course Works: Data Structures and Algorithms,Object-Oriented Programming (OOP),Machine Learning

Experience

TripFactory | SDE Intern (Backend) | **Jan'26– Present**

- Integrated hotel supplier API in the existing backend system.
- Working with a legacy backend built using Java Servlets, gaining hands-on exposure to servlet-based architecture, request–response lifecycle, and controller–service design patterns.
- Identifying issues in existing APIs, tracing logs, and fixing minor bugs to improve stability and maintainability of production services.

ZOHO Corporation | Project Trainee Intern | **July'25– Dec'25**

- Conducted a comparative analysis of current and upcoming DC-SCM (Data Center Secure Control Module) specifications, researching architectural changes and their impact on system-level control logic.
- Leveraged simulation tools to model and validate system behaviors based on technical specifications, focusing on power sequencing and the hardware-software interface and authored technical summaries.

Projects

Career Guidance Chatbot (RAG-based) | Next.js, Clerk, PostgreSQL, Gemini, Node.js [Github] | [Live Link]

- Built a full-stack RAG-based AI chatbot with PostgreSQL hybrid retrieval (keyword + vector), semantic search, reranking, and Gemini API–based LLM inference for context-aware responses.
- Developed a dynamic chat interface with Google Auth (Clerk), supporting persistent chat history, GPT-style new chat creation, and secure user session management.

Video Conferencing Application | Stream, SDK, Next.js ,Clerk , React | [Github] | [Live Link]

- Built a real-time video conferencing app using Next.js 14, TypeScript, Tailwind, Radix UI, and Stream SDK with meetings, scheduling, personal rooms, dynamic layouts, and responsive dashboard.
- Integrated Clerk Auth for secure login and protected routes; used App Router, nested layouts, custom hooks, and state derivation for a scalable, optimized architecture

CourseFlair | React, Flask, JWT, Google OAuth 2.0, PostgreSQL **|** [GitHub]

- Developed a full-stack course platform using React + Flask with modular REST APIs, protected routes, and seamless frontend–backend integration via Axios and CORS..
- Implemented JWT and Google OAuth 2.0 authentication with role-based access, and built a scalable Flask backend using Blueprints, middleware, clean error handling, and PostgreSQL integration.

Achievements

- **LeetCode** : Solved 450+coding problems, significantly enhancing algorithmic and data structure skills
- IIT Roorkee E-Summit 2024: Business Case Study Competition | Ranked in Top-9 teams out of 400teams.

Position of Responsibility

- Hospitality Team Lead, E-summit '24, IIIT Nagpur
- Management Team Co-Lead, TantraFiesta '24 (AnnualTech-Fest), IIIT Nagpur
